

## Property Checklist to Join the Knox County Goes Native Initiative

It's easier than you think to start going native and attracting wildlife! Use this simple checklist to confirm your property is on its way:

\*Note: please apply online at (<https://forms.gle/TWwv4Mtq5FYgh3W26>) or mail-in application and attachments (directions in separate application document).

Planning/Assessing Your Property: Choose at least one of the following:

- Complete a plant inventory of your property
- Write/draw a plan to increase the amount of native plants on your property and add wildlife friendly elements

Increasing Native Plants/Reducing Invasive Plants: Choose at least one of the following:

- Plant a native species
- Plant a keystone plant species (see keystone plant list)
- Remove an invasive plant -or- participate in a public invasive plant removal project

Encouraging Wildlife: Choose at least one of the following:

- Add a water feature (e.g. bird bath, rain garden, pond, etc.)
- Add a shelter feature (e.g. brush pile, bird/bat box, bee hotel, log pile, etc.)

\*See Knox County Goes Native Program Guide for more information and help completing these tasks.
